To Whom It May Concern:

I am pleased to write this letter of support for Sean Carney and Lambert & Carney Benefits Group, LLC.

We have just made the change to them as our broker and have found them to be extremely helpful and knowledgeable about benefit administration as well as looking at creative ways to assist us in communicating a variety of benefit options to our employees.

As we were finalizing our plan for this year Sean gave a presentation to our benefit committee which was very effective. He has put us in touch with a firm to offer additional coverage options to our employees and will be attending all of our open enrollment meetings.

Even though our relationship is in its infancy, I can see that the firm is responsive to our needs and questions. I look forward to a successful partnership.

If you have any questions I would be happy to discuss this further at your convenience.

Sincerely,

Susan Devlin
