To Whom It May Concern:

I am both pleased and proud to write this letter of support for Sean Carney and Lambert & Carney Benefits Group, LLC

Sean and his team has been a tremendous asset to Worcester Polytechnic Institute over the past years in supplying us with in-depth knowledge and expertise in benefits administration.

Most recently, Sean negotiated a total health insurance replacement with carriers on behalf of WPI to obtain a plan that is beneficial to all faculty and staff. With the rising costs of health insurance, it was not an easy task resulting with WPI ending a long standing relationship with a major carrier but Sean and his team made the transition smooth. Sean attended many meetings and presented their findings to a number of boards on campus. To help in the transition, they created a benefits website that not only includes health insurance information but every benefit available to WPI employees. They attended health insurance sessions for employees and are always available to us, sometimes on a "minutes notice".

I cannot say enough about the quality of service we receive from such a knowledgeable, well-informed and responsive group. I therefore highly recommend the services of Sean Carney and Lambert & Carney Benefits Group, LLC. We look forward to another successful year!

If there are any questions or concerns I can assist with, I would be happy to discuss further. I can be reached at (508) 831-5473.

Sincerely,

A. Tracy Hassett
Associate Vice President for Human Resources
& Special Assistant to the President
